

## Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010: Summary of the Final Rule

### What is a local school wellness policy?

A local school wellness policy ("wellness policy") is a written document that guides a local educational agency's (LEA) or school district's efforts to establish a school environment that promotes students' health, well-being, and ability to learn.

The wellness policy requirement was established by the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004 and further strengthened by the Healthy, Hunger-Free Kids Act of 2010 (HHFKA). It requires each LEA participating in the National School Lunch Program and/or School Breakfast Program to develop a wellness policy. The final rule expands the requirements to strengthen policies and increase transparency. The responsibility for developing, implementing, and evaluating a wellness policy is placed at the local level, so the unique needs of each school under the LEA's jurisdiction can be addressed.

### Provisions of the Final Rule

On July 29, 2016, the USDA Food and Nutrition Service (FNS) finalized regulations to create a framework and guidelines for written wellness policies established by LEAs. The final rule requires LEAs to begin developing a revised local school wellness policy during School Year 2016-2017. LEAs must fully comply with the requirements of the final rule by June 30, 2017.

### Content of the Wellness Policy

At a minimum, policies are required to include:

- **Specific goals** for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. LEAs are required to review and consider evidence-based strategies in determining these goals.
- **Standards and nutrition guidelines for all foods and beverages** sold to students on the school campus during the school day that are consistent with Federal regulations for:
  - School meal nutrition standards, and the
  - Smart Snacks in School nutrition standards.
- **Standards for all foods and beverages provided, but not sold, to students** during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- **Policies for food and beverage marketing** that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- **Description of public involvement, public updates, policy leadership, and evaluation plan.**

### Wellness Leadership

LEAs must establish **wellness policy leadership** of one or more LEA and/or school official(s) who have the authority and responsibility to ensure each school complies with the policy.

### Public Involvement

At a minimum, LEAs must:

- **Permit participation** by the general public and the school community (including parents, students, and representatives of the school food authority, teachers of physical education, school health professionals, the school board, and school administrators) in the wellness policy process.
